31 EXPLANATION

32 The inclusion of this explanation does not constitute agreement with
33 the explanation's substance by the members of the general assembly.

34 This bill repeals current Code chapter 455C, the beverage
35 containers control law, and replaces it with new statewide

1 recycling, litter control, and community enhancement programs.

2 The bill requires an eligible applicant to submit a
3 recycling program proposal to the department of natural
4 resources on or before January 1, 2018, outlining its proposals
5 regarding recycling, litter control, and community enhancement
6 programs set forth in new Code sections 455C.5 and 455C.8.
7 Eligible applicants without approved proposals will not be
8 eligible for funding assistance from the new programs created
9 in the new Code chapter.

10 The bill deposits moneys into the solid waste account of the
11 groundwater protection fund created in Code section 455E.11(2)
12 for use by the recycling program collected through a recycling
13 program fee imposed by the department of natural resources.
14 The recycling program fee is a temporary assessment that will
15 remain in place until \$60 million is raised, at which point the
16 recycling program fee is no longer imposed.

17 The bill requires eligible applicants to submit
18 litter control and community enhancement proposals to the
19 administrator of the keep Iowa beautiful fund. The keep Iowa
20 beautiful fund receives moneys from a new litter control and
21 community enhancement fee collected by the department of
22 revenue at a rate of fifteen-thousandths of 1 percent of the
23 sales price of beverages in beverage containers.

24 The bill authorizes the environmental protection commission
25 to adopt rules pursuant to Code chapter 17A necessary to
26 administer the new Code chapter 455C provisions.

27 The bill modifies the title of the waste volume reduction
28 and recycling fund created in Code section 455D.15 and updates
29 references to that fund throughout the Code.

30 The bill removes a statutory requirement that city councils
31 or county boards of supervisors that provide for residential
32 solid waste collection consider mandatory curbside collection
33 of recyclable materials as a proposed ordinance.

34 The bill takes effect January 1, 2018, except that the
35 department of natural resources and the administrator of the

H.F. 575

1 keep Iowa beautiful fund may begin implementation on July 1,
2 2017, to the extent necessary to transition from the beverage
3 containers control law to full implementation of the provisions
4 relating to the recycling program and litter control and
5 community enhancement initiative.
